

IFW 2642

THE UNITED STATES PATENT AND TRADEMARK OFFICE

Applicant: Charles L. Urso
Appn. No.: 09/892,976
Art Unit: 2642
Title: Wearable wireless cap phone

Filed: 06/27/2001
Examiner: W. J. Deane Jr.

Amendment A with Supplemental Remarks

Commissioner for Patents
United States Patent and Trademark Office
P.O. Box 1450
Alexandria VA 22313-1450

Sir:

This paper is responsive to the Office Action mailed 10/07/2005. Amendment A as previously submitted was considered by the Examiner as not fully responsive to the prior Office Action because Applicant did not point out where support can be found in the specification for the Amendment as submitted. Therefore, as requested by the Examiner, the remarks herein point out, with particularity, the support for all the claims as filed in the PTO on 13 June 2005.

CLAIMS:

1. (Canceled) A cap phone comprising:
a cap including a soft crown and a visor attached to the crown; and
a telephone supported by the cap such that a user can telecommunicate,
hands-free, while wearing the cap.
2. (Canceled) The cap phone of claim 1, wherein the crown includes a
circumferential edge and the telephone includes an earphone movably
supported to move between a retracted position above the circumferential
edge and a deployed position below the circumferential edge.
